

DC GÜÇ ÜNİTELERİ / DC POWER UNIT

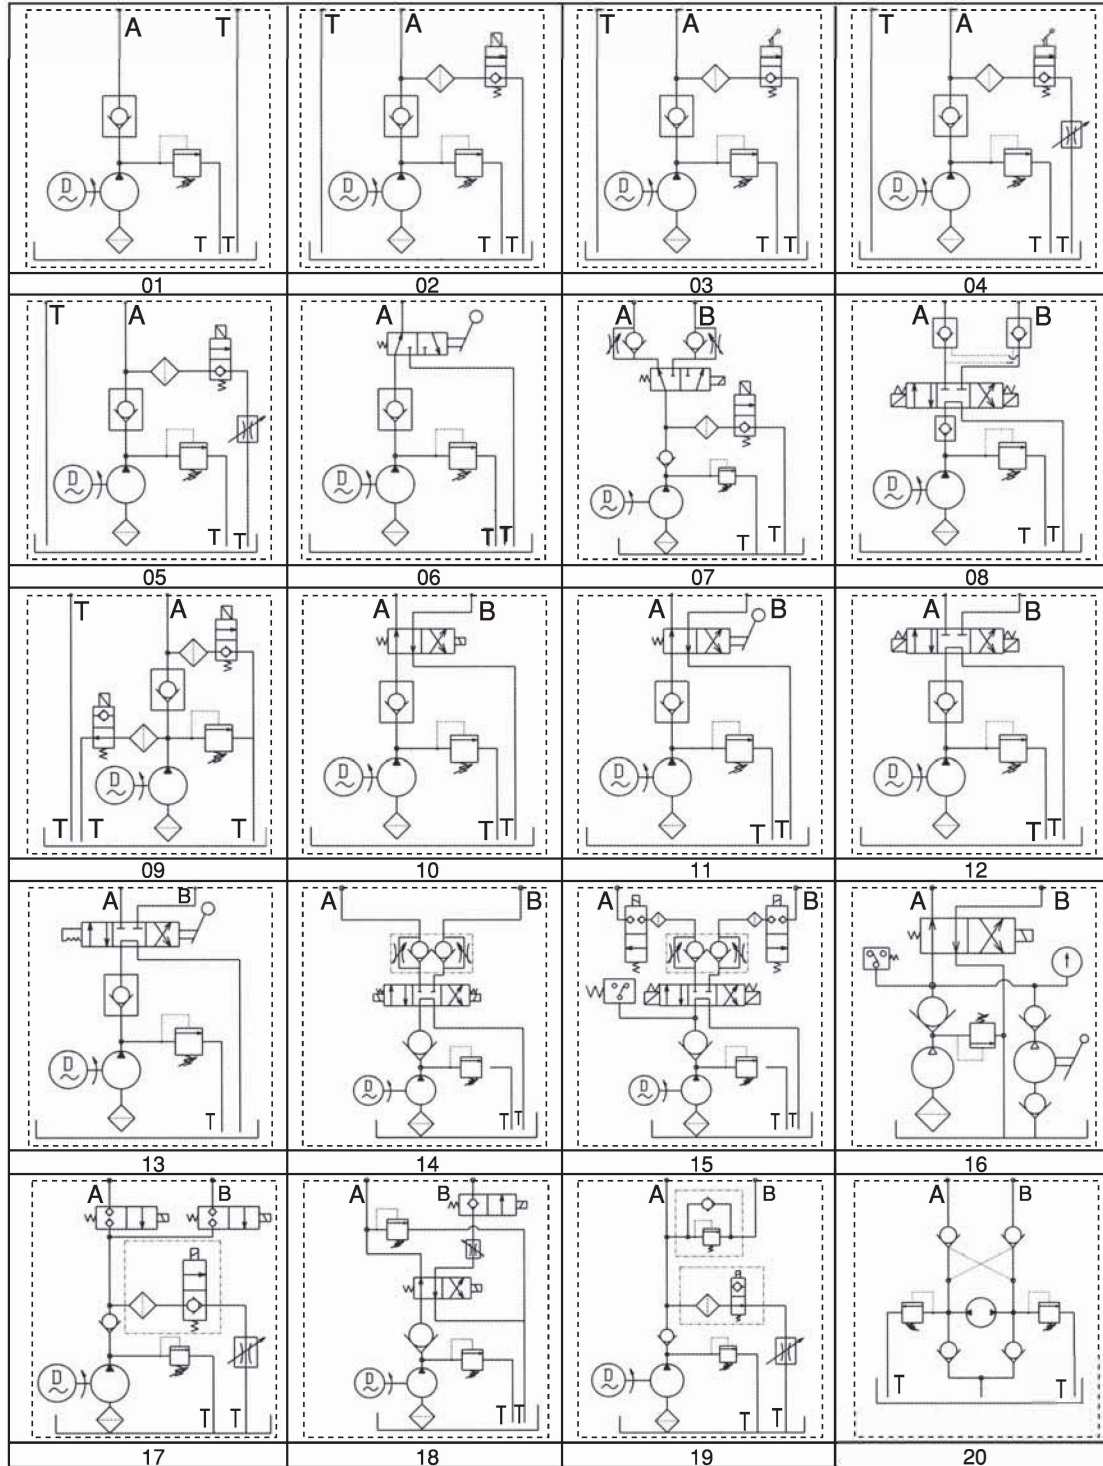

AC GÜÇ ÜNİTELERİ / AC POWER UNIT

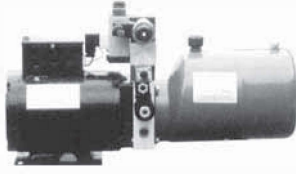

HİDROLİK GÜÇ ÜNİTELERİ ŞEMATİK ÇİZİMİ

POWER UNIT HYDRAULIC SCHEMATIC DIAGRAM

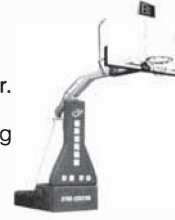

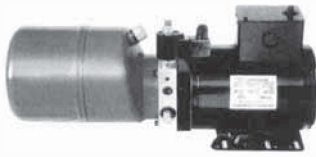

Not: Bunun dışında işe özel hidrolik şema hazırlanır.

ÖRNEK UYGULAMA ALANLARI**Uygulama 1 / Application 1**

Elektrikli basketbol potalarında, geri dönüşü hız kontrollü tek etkili iki set pistonun kontrolünde kullanılır.

Application of Electric-basketball stands, controlling two sets of one - way cylinders, with downspeed control characteristic.

**Uygulama 2 / Application 2**

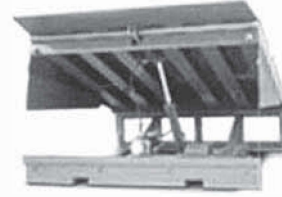

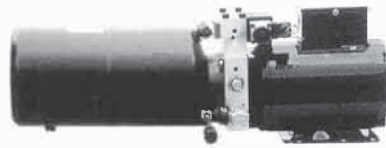

Solenoid valf kontrollü kaldırıcılarda kullanılır.

Application of plat-lifting and car-lifting with the solenoid valve controlling.

**Uygulama 3 / Application 3**

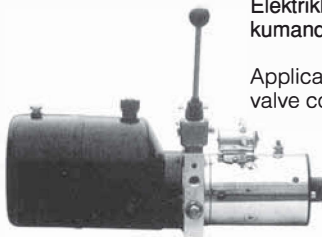

Kalkan köprü uygulaması, geri dönüşü ayarlı iki set tek etkili sıralı kontrolünde kullanılır.

Application of Dock-bridge, controlling two sets of one way cylinders for sequential operation, with down-speed control characteristic.

**Uygulama 4 / Application 4**

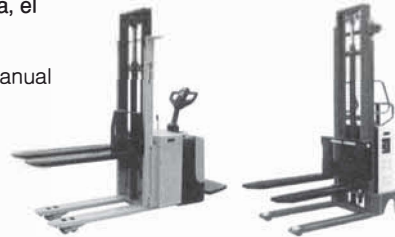

Beton karma makinalarında, güvenlik için el pompası ile kontrol edilebilir.

Application of Concrete mixer, with manual pump for emergency.

**Uygulama 5 / Application 5**

Elektrikli kaldırıcıların uygulamalarında, el kumandası ile kontrol edilir.

Application of electric-stacker, with Manual valve controlling.

ÖRNEK UYGULAMA ALANLARI
Uygulama 6 / Application 6

İkili araba kaldırımlarında kullanılır. Geri dönüşü hız ayarlı iki set tek etkili silindir kullanılır.

Application of scissor car-lifting controlling two sets of one-way cylinders, with down-speed control characteristic for twice-lifting.

Uygulama 7 / Application 7

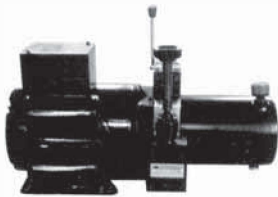

Geri dönüşü hız kontrollü el kumandalı valfi araba kaldırımları.

Application of plat-lifting, manual valve controlling with down speed control characteristic.

Uygulama 8 / Application 8

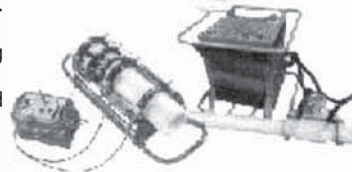

Çöp arabaları uygulaması, emniyetli bir set tek etkili silindir ileri geri hareketinde.

Application of Model A Garbage-lorry, controlling one set of one-way cylinder with the characteristic of relieving in meso-position and shuttling movement.

Uygulama 9 / Application 9

Boru kaynatma makinalarının uygulamasında tek yönlü bir set emniyetli silindirin kontrolünde.

Application of Plastic-pipe welder, controlling one set of one-way cylinder with the characteristic of relieving in meso-position and shuttling movement.

Diğer Uygulamalar / More Application
