

WPV2R Series Double Vane Pumps

These double pumps consist of two WPV2R series single pumps combined in tandem within a single housing and driven by a common shaft. A single suction port and two discharge ports are provided so that the output flow can be supplied to separate circuits.

Model Description

F-	WPV2R13	-6	-76	-F	-1	R	-U	U	-10
Applicable oil night mark	Series Number	Nominal displacement mL/r		Installation type	Aerial extension form	turn around	Output port position		Design Number
		Cover-end pump	Shaft end pump				Cover-end pump	Shaft end pump	
Ummarked Petroleum oil Emulsion Water-ethylene F: Phosphate ester solution	WPV2R12	6, 8, 10, 12, 14, 17 19, 23, 25, 28, 31	26, 33, 41, 47 53, 59, 65, 75	F: (standard): Flange Mtg. L: Foot Mtg.	1 (standrd): Laurel thin 2: Cylindrical thin extension	R (standard): Clockwise square	From the end of the shaft U: (standard): Top left 45° D : bottom right 45° R : top right 45° L, lower left 45°		10 (Can be omitted)
	WPV2R13	6, 8, 10, 12, 14, 17 19, 23, 25, 28, 31	52, 60, 66, 76, 85, 94, 116, 125, 136, 153				U: (standard): Above D : below R : Right L, Left	U: (standard): Above D : below R : Right L, Left	
	WPV2R23	26, 33, 41, 47, 53, 59, 65, 75	52, 60, 66, 76, 85, 94, 116, 125, 136, 153				U: (standard): Top left 45° D : 45° at the bottom right R : top right 45° L, 45 on the lower left.		

1. If you need other specifications of displacement or other types of shaft extension, please contact our technical department;
2. The suction port position is set to the top;
3. When the model number of the order is not complete, the product (installation type, shaft extension type, rotation direction and position of the oil port, etc) is supplied according to the standard type.

WPV2R Series Double Vane Pumps

Working parameters

[Anti-wear hydraulic oil viscosity 20cSt (ISO vg32 oil, temperature 50 °C), speed 150r (min, inlet pressure 0MPa)]

Explanations: 1. Description of the same unit "T as parameter" (see page 51) 2. Total drive power of dual pumps ~ shaft end pump drive common power + cover end pump drive power.
